

# Support on the Road to Zero

---

Matthew Eastwood

Head of Transport

# Background to Energy Saving Trust

Established by the UK Government in 1992.

Offices in Scotland, England, Wales and Northern Ireland.

Aims to reduce harmful emissions by promoting sustainable, efficient use of energy and transport.

Independent

Impartial

Pragmatic

# Support on the Road to Zero

Free and impartial fleet advice supporting fleets to:

- Reduce operating costs and tailpipe emissions.
- Support the adoption of the cleanest new vehicles.

Dealership Engagement to support the market for ULEVs.

# Support on the Road to Zero

Support for the deployment of charging infrastructure essential to the rollout of ULEVs through:

- Grant funding.
- Technical advice.

Support for local government in addressing the challenge of local air quality issues.

# Support on the Road to Zero

Popularising safe and efficient driver behaviour to reduce the costs and emissions of vehicles already on our roads.

Working with LowCVP to certify vehicle retrofit in the UK and, providing funding to support vehicle retrofit in Scotland to reduce the emissions of vehicles already on our roads.
